

Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

1. (Currently Amended) ~~[[A]]~~ An airbag including a fabric sheet and a structure for attaching ~~[[a]]~~ the fabric sheet to a vehicle body in which the fabric sheet is attached to the vehicle body by inserting a threaded fastener through a hole of the fabric sheet and screwing the fastener into a fastening hole formed in the vehicle body, wherein the structure comprises:
 a spacer positioned in the hole of the sheet, the spacer having a cylindrical portion inserted in the hole of the fabric sheet, the diameter of the cylindrical portion being smaller than the inner diameter of the hole of the fabric sheet,
 wherein the threaded fastener is inserted into the cylindrical portion,
 wherein an end of the spacer is in contact with the vehicle body and another end of the spacer is provided with a flange having a diameter larger than the inner diameter of the hole of the fabric sheet, and
 wherein the spacer is configured to rotate within the hole of the fabric sheet.

2. (Currently Amended) The airbag structure of claim 1, wherein the flange is integrally formed with the cylindrical portion.

3. (Currently Amended) The airbag structure of claim 1, wherein the spacer includes a spacer rear body ~~to be in contact with the vehicle body~~ and a spacer front body to be connected with the spacer rear body,
 wherein either the spacer front body or spacer rear body includes the flange, and the other of the spacer front body and spacer rear body includes an enlarged portion larger than the hole of the fabric sheet, the enlarged portion being located between the vehicle body and the fabric sheet.

4. (Currently Amended) The airbag structure of claim 3, wherein the spacer includes a tacking member for tacking the spacer ~~rear body~~ to the vehicle body so that the tacking member engages with an engaging hole in the vehicle body.

5. (Currently Amended) The airbag structure of claim 1, wherein the hole in the fabric sheet is located in an edge portion of an airbag that is intended to protect a vehicle occupant's head.
